Profile

React Native and MERN stack developer with 3+ years of experience building scalable mobile and web applications. Skilled in React Native, Expo, and Flutter for cross-platform apps, and in MongoDB, Express.js, React, and Node.js for full-stack solutions. Passionate about user experience, performance optimization, and delivering innovative products that solve real-world problems.

Skills

- **Mobile Development:** React Native, Expo, Flutter
- **Frontend:** React, Next.js, Tailwind CSS, Vite
- **Backend:** Node.js, Express.js, NestJS, Fastify
- **Languages:** JavaScript (ES6+), TypeScript, PHP, HTML, CSS
- **Database:** MongoDB (Mongoose)
- **Tools:** Git, GitHub, REST APIs

Experience

Software Developer

2021 – Present

Freelance

- Developed and deployed production-ready mobile apps using React Native and Expo.
- Built responsive and interactive user interfaces with React and Tailwind CSS.
- Designed and integrated secure REST APIs with Node.js, Express, and MongoDB.
- Delivered customized solutions to clients, ensuring optimized performance and user satisfaction.

Education

B.Sc. Computer Science

2018 - 2023

Taraba State University, Nigeria

Second Class Honors (Lower Division)

Diploma in Software Programming and Development Using Java

2019 - 2020

ALGADDAF Computers, Technology Incubation Center, Jalingo Taraba State

Certifications

- FreeCodeCamp, Responsive Web Design Certification, 2024
<https://www.freecodecamp.org/certification/ShuaibuPassionateProgrammer/responsive-web-design>
- FreeCodeCamp, JavaScript Algorithms and Data Structures (Beta), 2024
<https://www.freecodecamp.org/certification/ShuaibuPassionateProgrammer/javascript-algorithms-and-data-structures>

Projects

- **Lumin (Social Media App)** – React Native, Expo: Social app with posts, likes, and real-time interactions.
- **KudiTrack (Expense Tracker)** – React Native, MongoDB: Advanced personal finance manager with authentication and charts.
- **X-Clone** – React Native, Firebase: Twitter-like clone with authentication, posting, and feed features.
- **Weather App** – React Native, API integration: Real-time weather data with location-based search.
- **Task Manager** – MERN Stack: CRUD operations with authentication and responsive UI.
- **Advanced Auth System** – MERN Stack: JWT-based authentication and role management.
- **QR-Code Attendance System** – PHP, MySQL: Automated student attendance tracking.
- **Student Result Processing System** – PHP, MySQL: Web app for managing and processing student results.
- **Mobile Web Browser (Undergraduate Project)** – Java: Lightweight mobile browser with tabbed navigation.
